

### Scenario: Searching and Applying for Internships

Alex logs onto the internship matching platform, "LaunchPad Advising," hoping to find internship in software development. Using the platform's search and filter tools, Alex narrows down the options to internships focusing on web development. After finding some positions, Alex uses the platform to submit applications, attaching a resume and a link to a personal portfolio of projects.

### User Stories from Scenario(Alex)

- I want to search for internships by keyword and filter so that I can find opportunities
- I want to apply to multiple internships through the platform, submitting my resume and portfolio directly
- I want to receive notifications about new internships so that I don't miss out on opportunities.
- I want to track the status of my applications so that I know where I stand

### Group:

- Search and Filter: Allows users to search for internships using keywords and filter results by area of interest, location, and duration.
- File Uploads: Provides functionality for users to upload and manage their resumes and portfolios.
- Dashboard for Application Tracking: A user-friendly dashboard that displays the current status of each application, including feedback or next steps from the hiring company.
